ARTISAN TRADITION

AN ITALIAN STORY OF SKILL & CREATIVITY

We are an Italian acoustic panel and soft seating company located in north east Italy. We design sophisticated acoustic wall panels and acoustic soft seating for many applications whether it is a home office, home theatre or a commercial establishment.

IT IS OUR JOB TO SILENCE YOUR NOISE MONSTERS.

In fact, our job is to contain all those troublesome noise monsters that make their way into your everyday life. Of course, the technical properties of our acoustic product is important however we are also about style and design. When it comes to your work or play environment the overall feel of your space should reflect who you are.

40 YEARS AND STILL GROWING

NOISEMONSTER™

ACOUSTIC WALL PANELS MADE STYLISH & EFFICIENT

Like a hand in glove - we want your space to look right, feel right and work right. You are making an investment into your space and you want to stay in fashion for years to come. This is where we step in. We are artisans with an eye for mixing colour, texture, weave and shapes into our acoustic wall panels and soft seating. We are focused with getting it right.

BRINGING YOU THE BEST IN ACOUSTIC PRODUCTS

You can depend upon us to deliver style while eliminating the noise monsters from your everyday life while at work or at play. No noise monster is too big or too small. Say HUSH to the Noise Monsters!

PREMIUM PRODUCTS

CHARACTERISTICS & FEATURES

We use contract quality ingredients when making our acoustic panels.

THE INSTALLATION SYSTEM

FIX IT AS EASY AS 1-2-3

With Button Fix patented hidden installation system fixing the panels is undemanding, easy and safe. The Button-fix fix is completely invisible, and with no bolts or screws on show, you can be confident of quickly achieving a fabulous flawless finish that you will love.

MARKER TOOL

1

Use the ingenious Marker accessory to quickly and accurately align the panels. No need for a tape measure or for guesswork! Snap a marker into each Fix, then position the second panel and press firmly. The marker points will leave indents in the panel surface, which can be used as pilot guides for the Buttons.

2

CLIP & BUTTON

Fixes - clips - are attached to the wall. Buttons are attached to the back of one panel.

3

THE PANEL IS UP

Push on the panel firmly until the Button-fixes 'click'.
